**BICARBONATE, CHLORIDE, AND PROTON
TRANSPORT SYSTEMS^a**

Editors

JOHN H. DURHAM AND MARCOS A. HARDY

Conference Organizers

JOHN H. DURHAM, MARCOS A. HARDY, AND WALTER N. SCOTT

Advisory Board

GEORGE A. GERENCSE, ROLF KINNE, JUHA KOKKO, CHRISTOPHER MILLER,
REINHART REITHMEIER, ASER ROTHSTEIN, AND CLIFFORD L. SLAYMAN

CONTENTS

Preface. By JOHN H. DURHAM and MARCOS A. HARDY	xi
William A. Brodsky: A Tribute	xiii

Part 1. Primary and Conductive Chloride Transport

Primary Active Electrogenic Chloride Transport Across the <i>Aplysia</i> Gut. By GEORGE A. GERENCSE	1
Halorhodopsin: A Light-Driven Active Chloride Transport System. By LÁSZLÓ ZIMÁNYI AND JÁNOS K. LÁNYI	11
Electrogenic Chloride Transport in Algae. By D. GRADMANN	20
Possible Role of Outwardly Rectifying Anion Channels in Epithelial Transport. By JOHN W. HANRAHAN AND JOSEPH A. TABCHARANI	30
Phosphorylation-Dependent Regulation of Apical Membrane Chloride Channels in Normal and Cystic Fibrosis Airway Epithelium. By MICHAEL J. WELSH, MING LI, JOHN D. MCCANN, JOHN P. CLANCY, AND MATTHEW P. ANDERSON	44

^a This volume is the result of a conference entitled Bicarbonate, Chloride, and Proton Transport Systems, which was held by the New York Academy of Sciences on January 19-21, 1989 in New York, New York.

Poster Papers

Cl ⁻ Efflux in Brown Adipocytes. A Possible Mechanism for α -Adrenergic Plasma Membrane Depolarization. <i>By</i> LEONARDO DASSO, EAMONN CONNOLLY, AND JAN NEDERGAARD	52
Effect of cAMP on Normal and Uremic Human Red Cell Chloride Conductance. <i>By</i> R. D. LONDON, M. S. LIPKOWITZ, AND R. G. ABRAMSON	55
Properties of an Anion Channel in Rat Liver Canalicular Membranes. <i>By</i> M. SELLINGER, S. A. WEINMAN, R. M. HENDERSON, A. ZWEIFACH, J. L. BOYER, AND J. GRAF	57
Hypotonic Medium-Activated Chloride Transport in Human Skin Fibroblasts. <i>By</i> MICHELA RUGOLO	60

Part 2. Mechanisms of Chloride Cotransport

The Na-K-Cl Cotransporter in the Kidney. <i>By</i> ROLF K. H. KINNE	63
Structure and Function of the Band 3 Cl ⁻ /HCO ₃ ⁻ Transporter. <i>By</i> REINHART A. F. REITHMEIER, DEBRA M. LIEBERMAN, JOSEPH R. CASEY, SANJAY W. PIMPLIKAR, PAMELA K. WERNER, HILARIO SEE, AND CHARLES A. PIRRAGLIA	75
Characteristics of the Binding Site for Extracellular Substrate Anions in Human Red Blood Cell Band 3. <i>By</i> MICHAEL L. JENNINGS	84
Heterogeneity of Anion Exchangers Mediating Chloride Transport in the Proximal Tubule. <i>By</i> PETER S. ARONSON AND SHIU-MING KUO	96

Poster Papers

Two Gene Products Encoding Putative Anion Exchangers of the Kidney. <i>By</i> S. L. ALPER, F. C. BROSIUS III, A. M. GARCIA, S. GLUCK, D. BROWN, AND H. F. LODISH	102
Chloride Uptake into High Resistance MDCK Cells. <i>By</i> KURT AMSLER AND B. AVERY INCE	104
Reconstitution of the Rabbit Parotid Basolateral Membrane Na/K/Cl-Dependent Bumetanide Binding Site. <i>By</i> A. CORCELLI AND R. JAMES TURNER	106
Chinese Hamster Ovary Cell Mutants Deficient in an Anion Exchanger Functionally Similar to Erythroid Band 3. <i>By</i> ADA ELGAVISH, JEFFREY D. ESKO, RAYMOND FRIZZELL, DALE BENOS, AND ERIC SORSCHER	109
Propionate/Bicarbonate Exchange in Human Small Intestinal Brush Border Membrane Vesicles. <i>By</i> J. M. HARIG, K. H. SOERGEL, AND K. RAMASWAMY	113

Identification of an Overexpressed Putative Anion Transport Protein in <i>Drosophila</i> Kc Cells Resistant to Disulfonic Stilbenes. By MARILYN M. SANDERS, KATHLEEN JOHN-ALDER, AND ANN C. SHERWOOD....	115
Modulation of Anion Exchange by Cardiac Glycosides and Cytochalasin E in Separated Rabbit Kidney Medullary Collecting Duct (MCD) Cells. By A. JANOSHAZI AND A. K. SOLOMON	117
Outward Potassium/Chloride Cotransport from Mammalian Cortical Neurons. By SCOTT M. THOMPSON	120
Effect of Disulfonic Stilbene Anion-Channel Blockers on Contractility of Vascular Smooth Muscle. By AIMIN ZHANG, BELLA T. ALTURA, AND BURTON M. ALTURA	123
Influence of Chloride and Other Anions on Nervous Control of Vascular Smooth Muscle by Neurotransmitters. By AIMIN ZHANG, BELLA T. ALTURA, AND BURTON M. ALTURA	125
Characteristics of Na^+/H^+ and $\text{Cl}^-/\text{HCO}_3^-$ Antiport Systems in Human Ileal Brush-Border Membrane Vesicles. By K. RAMASWAMY, J. M. HARIG, J. G. KLEINMAN, AND M. S. HARRIS	128
Na-Dependent HCO_3^- Transport and $\text{Cl}^-/\text{HCO}_3^-$ Exchange in Ciliary Epithelium. By J. MARIO WOLOSIN, JOSEPH A. BONANNO, AND TERRY E. MACHEN	131

Part 3. Molecular and Cellular Aspects of Proton Transport

Ion Permeability and Pump Regulation. By P. LORENTZON, S. J. HERSEY, B. WALLMARK, AND G. SACHS	134
Pumps and Pathways for Gastric HCl Secretion. By JOHN G. FORTE, DAVID K. HANZEL, TETSURO URUSHIDANI, AND J. MARIO WOLOSIN	145
Regulation of CA II and H^+/K^+ -ATPase Gene Expression in Canine Gastric Parietal Cells. By VIRGINIA W. CAMPBELL AND TADATAKA YAMADA	159
Transmembrane Segments of the P-Type Cation-Transporting ATPases. A Comparative Study. By ROBERT K. NAKAMOTO, RAJINI RAO, AND CAROLYN W. SLAYMAN	165
Vacuolar and Cell Membrane H^+ -ATPases of Plant Cells. By ROGER M. SPANSWICK	180
Renal H^+ ATPases. By E. KINNE-SAFFRAN	189

Poster Papers

Simultaneous Binding of Inorganic Phosphate and ATP to Gastric H^+/K^+ -ATPase. By WILLIAM W. REENSTRA	201
Structural Analysis of Gastric ($\text{H}^+ + \text{K}^+$)-ATPase. By MASATOMO MAEDA AND MASAMITSU FUTAI	204

Part 4. Primary, Electrogenic, and Conductive Proton Transport

Models for Gastric Proton Pump in Light of the High Oxyntic Cell Conductance. <i>By</i> W. S. REHM, G. CARRASQUER, M. SCHWARTZ, AND T. L. HOLLOMAN	208
Cytochrome-Mediated Electron Transport in H^+ -Secreting Gastric Cells. <i>By</i> GEORGE W. KIDDER III	219
Differential Function Properties of a P-Type ATPase/Proton Pump. <i>By</i> CLIFFORD L. SLAYMAN AND GERALD R. ZUCKIER	233
Chloroplast Thylakoid Membrane-Bound Ca^{2+} Acts in a Gating Mechanism to Regulate Energy-Coupled Proton Fluxes. <i>By</i> RICHARD A. DILLEY AND GISELA G. CHIANG	246
Protons, the Thylakoid Membrane, and the Chloroplast ATP Synthase. <i>By</i> WOLFGANG JUNGE	268
Proton Channels in Snail Neurones. Does Calcium Entry Mimic the Effects of Proton Influx? <i>By</i> ROGER C. THOMAS	287

Part 5. Regulation of Chloride, Proton Transport, and Intracellular pH

Cell Volume Changes and the Activity of the Chloride Conductance Path. <i>By</i> ASER ROTHSTEIN AND CHRISTINE BEAR	294
Role of the Cytoskeleton in Regulation of Gastric HCl Secretion. <i>By</i> JOHN CUPPOLETTI AND DANUTA H. MALINOWSKA	309
Regulation of Intracellular pH in Renal Mesangial Cells. <i>By</i> WALTER F. BORON, GREGORY BOYARSKY, AND MICHAEL GANZ	321
Elementary Aspects of Acid-Base Permeation and pH Regulation. <i>By</i> OLAF SPARRE ANDERSEN	333
Down-Regulation of pH-Regulating Transport Systems in BC3H-1 Cells. <i>By</i> ROBERT W. PUTNAM	354
Regulation of Transepithelial Chloride Transport by Amphibian Gallbladder Epithelium. <i>By</i> LUIS REUSS	370

Poster Papers

Ionic Mechanisms of Cell Volume Regulation in Isolated Rat Hepatocytes. <i>By</i> JAMES G. CORASANTI, DERMOT GLEESON, AND JAMES L. BOYER	385
Characterization of Na^+/H^+ Exchange in the Murine Macrophage Cell Line J774.1. <i>By</i> L. C. MCKINNEY AND A. MORAN	388
Participation of Ion Transport Systems in the Regulation of the Cytolytic Function of Interleukin-2 Activated Killer Cells. <i>By</i> KUO-CHIEH WANG	391
Intracellular pH (pH_i) Regulation in Rabbit Inner Medullary Collecting Duct Cells. <i>By</i> D. KIKERI AND M. L. ZEIDEL	394

Basolateral Na/H Exchange in the Hamster Inner Medullary Collecting Duct. By YOHKAZU MATSUSHIMA, KOJI YOSHITOMI, CHIZUKO KOSEKI, MASASHI IMAI, SATOSHI AKABANE, MASAHITO IMANISHI, AND MINORU KAWAMURA.....	396
---	-----

Cellular Mechanisms in Parathyroid Hormone Control of Apical Na ⁺ /H ⁺ Exchange in Cultured Kidney (OK) Cells. By C. HELMLE, M. H. MONTROSE, AND H. MURER	399
---	-----

Characteristics of Two Different Na ⁺ -H ⁺ Antiport Systems in Several Epithelial and Nonepithelial Cell Lines. By CARLOS A. RABITO, EDWARD J. CRAGOE, JR., AND SALVADOR VINIEGRA	401
---	-----

Part 6. Regulation of Chloride, Bicarbonate, and Proton Transport

Mechanisms of Chloride Transport in Secretory Epithelia. By RAINER GREGER, KARL KUNZELMANN, AND LARS GERLACH	403
--	-----

Regulatory Mechanisms of Chloride Transport in Corneal Epithelium. By OSCAR A. CANDIA	416
---	-----

Characterization of the Proton-Secreting Cell of the Rabbit Medullary Collecting Duct. By HARRY R. JACOBSON, VICTOR L. SCHUSTER, AND MATTHEW D. BREYER.....	428
---	-----

Cl ⁻ Conductance and Acid Secretion in the Human Sweat Duct. By PAUL M. QUINTON AND M. M. REDDY.....	438
---	-----

H and HCO ₃ Transport across the Basolateral Membrane of the Parietal Cell. By TERRY E. MACHEN, MALCOLM C. TOWNSLEY, ANTHONY M. PARADISO, ETIENNE WENZL, AND PAUL A. NEGULESCU.....	447
--	-----

Acid and Alkali Secretion by the Turtle Urinary Bladder. A Model System for Neurohormonal Regulation of Acid-Base Homeostasis. By WILLIAM W. BRODSKY.....	463
---	-----

Poster Papers

Effect of Loop Diuretics on Bullfrog Cornea Epithelium. By WOLFRAM NAGEL AND GASPAR CARRASQUER.....	480
---	-----

Transport Compartments in the Turtle Urinary Bladder. An Electron Microprobe Analysis. By ADOLF DORGE, PETER BUCHINGER, FRANZ BECK, ROGER RICK, AND KLAUS THURAU.....	482
---	-----

Vibrating Probe Method for Measuring Local Transepithelial Current. By CARL SCHEFFEY.....	485
---	-----

Vibrating Probe Localization of Acidification Current to Minority Cells of the Turtle Bladder. By JOHN H. DURHAM, ALAN SHIPLEY, AND CARL SCHEFFEY.....	486
--	-----

Phorbol Myristate Acetate Controls the Mode of Acid/Base Transport in the Turtle Urinary Bladder. By MARK GRABER, PHILIP DEVINE, DENISE COACHMAN, AND TROY DIXON	489
--	-----

Chloride-Transport Inhibitors <i>in Vitro</i> Do Not Inhibit Intestinal Fluid Secretion <i>in Vivo</i> . By HÅKAN LARSSON, MARIE-LOUISE BERGLUND, AND JAN FRYKLUND	491
Integrated Response of Na-HCO ₃ Cotransporter and Na-H Antiporter in Chronic Respiratory Acidosis and Alkalosis. By ZVI TALOR, OFELIA S. RUIZ, AND JOSE A. L. ARRUDA	494
Evidence for Luminal KCl Exit as Mechanism for Active Chloride Secretion by Rabbit Cortical Collecting Duct. By C. S. WINGO	498
Effect of pH on Cl ⁻ and K ⁺ Permeabilities of the Frog Corneal Epithelium. By ALDO ZAMUDIO, OSCAR A. CANDIA, AND LAWRENCE ALVAREZ	502
Mechanism of pH-Independent Transport of NH ₄ ⁺ by Mouse Renal Medullary Thick Limbs. By D. KIKERI, A. SUN, M. L. ZEIDEL, AND S. C. HEBERT	505
Index of Contributors	507
